

**WORLD HARDBALL DOUBLES CHAMPIONSHIPS  
HISTORICAL RECORDS**

The World Hardball Doubles Championships have always been played in North America. They were sanctioned by the World Professional Squash Association (WPSA) from 1981 to 1987, with a hiatus in 1984 and 1985. Following another interval of 7 years, the event resumed in 1994, under the aegis of the World Squash Federation, and has been held approximately every two years since. Prior to 2009, teams could be made up of players from different countries, but in 2009 it became mandatory for each player in a pair to represent the same country.

Kindly note that only Canadian players (and their foreign partners prior to 2009), who have reached the finals of any event, are listed below.
