

**World International Softball Doubles Championships  
Canadian Team Historical Records**

Doubles Squash has been played since the 1920s, on Singles courts (Editor's note: extremely dangerous when played by tennis players !!) in many countries, but in 1992 the World Squash Federation AGM approved dimensions of 32 feet by 25 feet and a tin height of 17 inches. In 2008 the width was increased to 27 feet and in 2012 the tin height lowered to 13 inches.

Pairs must come from the same Member nation. Hong Kong hosted the first World Championships in 1997, with play taking place on three moving side wall courts, plus an International Doubles size glass court.
